Refrão

Pós-Refrão (Ain't no way... DOA...)

Verso:

You know I did it
It's over and I feel fine
Nothing you can say's gonna change my mind
Waited and I waited the longest night
Nothing like the taste of sweet decline

I went down, I fell, I fell so fast
Dropping like the grains in an hourglass
Never say forever, cause nothing lasts
Dancing with the bones to my buried past

Pré-Refrão:

Nevermind, there's nothing I can do
Bet your life there's something killing you

Refrão:

It's a shame we have to die, my dear
No one's getting out of here alive this time
What a way to go, but have no fear
No one's getting out of here alive this time

Verso:

I'm finished
I'm getting you off my chest
Made you come clean in a dirty dress
A promise is a promise
You're kept in check
Hard to cross a heart that beats it's fists

Take a good hard look for the very last time
The very last one in a very long line
Only took a second to say goodbye
Been a pleasure, but the pleasure's been mine all mine
