

Forest Blakk - If You Love Her

tom:
Capo: 1ª casa
Intro: C

Take it
If she gives you her heart, don't you break it
Let your arms be a place she feels safe in
She's the best thing that you'll ever have
She always has trouble falling asleep
She likes to cuddle while under the sheets
She loves pop songs and dancing, and bad trash TV
There's still a few other things
She loves love notes and babies
And likes giving gifts
Has a hard time accepting a good compliment
She loves her whole family and all of her friends
So if you're the one she lets in

Take it
If she gives you her heart don't you break it
Let your arms be a place she feels safe in
She's the best thing that you'll ever have
She'll love you if you love her like that

One days when
It feels like the whole world might cave in
Stand side by side and you'll make it
She's the best thing that you'll ever have
She'll love you if you love her like that

Kiss her with passion as much as you can

Acordes

Run your hands through her hair whenever she's sad
And when she doesn't notice how pretty she is
Tell her over and over so she never forgets

Take it
If she gives you her heart don't you break it
Let your arms be a place she feels safe in
She's the best thing that you'll ever have
She'll love you if you love her
One days when
It feels like the whole world might cave in
Stand side by side and you'll make it
She's the best thing that you'll ever have
She'll love you if you love her like that
