

Frank Sinatra - Something Stupid

```
I practice everyday to find some clever lines to say
                           tom:
                                                                        Am
                                                              To make the meaning come true
Intro: Am D Am D G
                                                                                               Am
                                                                                 D
                                                              But then I think I'll wait until the evening gets late
[Primeira Parte]
                                                              And I'm alone with you
                                                              Gadd9
I know I stand in line until you
                                                              The time is right your perfume fills my head the stars get red
Think you have the time to spend an evening with me
              D
                                                              And on the nights so blue
                              Am
And if we go someplace to dance I know that there's a chance
                                                              [Refrão]
You won't be leaving with me
  G7 Gadd9
And afterwards we drop into a quiet little place
                                                              And then I go and spoil it all by saying something stupid
                     Eb
                                                                        G G G
                                                              Like I love you
And have a drink or two
[Refrão]
                                                              [Solo] G G G
                                                                    Am D Am D
Am D Am D
G G G G
               D
                               Am
And them I go and spoil it all by saying something stupid
Like I love you
                                                              Gadd9
[Segunda Parte]
                                                              The time is right your perfume fills my head the stars get red
                                                              And on the nights so blue
                                                                              D
I can see it in your eyes that you despise the same old lines
                                                                                             Am
                                                              And then I go and spoil it all by saying something stupid
You heard the night before
                                                              Like I love you
And though it's just a line to you for me it's true
                                                               G Eb
                                                              I love you
                  D
And never seemed so right before
                                                              I love you
```
