

## Franz Ferdinand - Can't Stop Feeling

```
Tom: C
                                                               And you leave me dancing alone
                                    Dm
                                                               Yeah you leave me to die on the floor
My soul starts spinning again
                                                               You can't feel it
I can't stop feeling
                                                               You can't feel it
No, I won't stop feeling
                                                               And you can't feel anymore
And the fun's not fun anymore
                                                                       Dm
                                                               Feel anymore, feel anymore
I can't stop feeling
No, I won't stop feeling
                                                               Feel anymore
And you leave me here on my own
                                                               Do-do-doo, do-do-doo...
Yeah you leave me here on the floor
                                                               Soul boy, down and alone
You can't feel it
                                                               And his soul is broken again
And you can't feel it
                                                               But you can't stop moving
You can't feel it
                                                               No you won't stop moving along
And you can't feel anymore
                                                               Aaaaah
                                                               ( Am Dm C E )
           Dm
Do-do-doo, do-do-doo
                                                               Can't stop moving
Soul boy, down and alone
                                                                    Dm
                                                               Oh I can't stop feeling
And his soul is broken again
                                                               Can't stop feeling
But you can't stop moving
                                                               No I can't stop feeling
      Dm
No you won't stop moving along
                                                               And you can't feel it
                                                               And you can't feel it
My soul starts spinning again
                                                               You can't feel it
I can't stop feeling
                                                               And you can't feel anymore
No, I don't stop feeling
                                                               Soul boy, down and alone
And we're not 'us' anymore
                                                               And his soul is broken again
I can't stop feeling
                                                               (F Dm E E)
No, I won't stop feeling
```
