

# Freya Skye - Walk Over

tom:

A

C

So what, the heel on your shoe broke

Take it off or break the other one, oh

So what, you ran for the last bus

And he didn't want to let you on

Tough luck, you lost your connection

If he cares, it'll ring again, yeah

Enough, you know what he's doing

And how long it's been happening

Everybody wants to see you happy

But nobody's gonna help you cry

Got somebody that can keep you laughing

But nobody that can dry your eyes

So build a bridge and walk over

Take the risk and walk over

Bite your lips and walk over

That river that you cry

Lay the bricks and walk over

Make a wish and walk over

Look how quick you got over

And now that river's dry

If you were scared of your shadow

Wouldn't you stop lookin down, now

Instead you closed every window

Thinking you could keep the light out

Everybody's got their own opinion

Everybody's got their own opinion

Everybody's got their own opinion

Everybody's got their own opinion

G

But nobody's gonna help you choose

Am

Everybody wants to be on your team

F

But nobody wants to see you lose

C

So build a bridge and walk over

G

Take the risk and walk over

Am

Bite your lips and walk over

F

That river that you cry

C

Lay the bricks and walk over

G

Make a wish and walk over

Am

Don't trip on the way over

F

That river might be why, oh

F

Walk, walk, walk, walk

A little bit faster

Little bit faster now

Am

Don't, don't, don't, stop

C

Let him keep talkin'

You keep crossing now, oh

F

You're almost at the other end

G

So close to the river bend

C

So build a bridge and walk over

G

Take the risk and walk over

Am

Bite your lips and walk over

F

That river that you cry

C

Walk, oh, oh

G

Walk, oh, oh

Am

Walk, oh, oh

F

Oh, ooh, ooh
