```
Am                     F
Oh, it's just me, myself and I
         G
Solo ride until I die
         Em                 Am
Cause I, got me for life
                  F
Oh I don't need a hand to hold
         G
Even when the night is cold
         Em              Am
I got that fire in my soul
                 F
And as far as I can see, I just need privacy
                      G
Plus a whole lot of tree, fuck all this modesty
              Em
I just need space to do me
                            Am
Give the world what they're tryna see
                           F
A Stella Maxwell right beside of me
A Ferrari, I'm buyin' three
G                                                  Em
A closet of Saint Laurent, get what I want when I want
                          Am
Cause this hunger is driving me, yeah
                      F
I just need to be alone, I just need to be at home
                 G
Understand what I'm speaking on
                           Em
If time is money I need a loan
                             Am
But regardless I'll always keep keepin' on
Fuck fake friends
F
We don't take L's, we just make M's
G
While y'all follow, we just make trends
Dm
I'm right back to work when that break ends
```

```
Am                     F
Oh, it's just me, myself and I
         G
Solo ride until I die
         Em                 Am
Cause I, got me for life
                  F
Oh I don't need a hand to hold
         G
Even when the night is cold
         Em              Am
I got that fire in my soul
Am                              F
I don't need anything to get me through the night
                  G
Except the beat that's in my heart
              Em
And it's keeping me alive
```

```
Am                            F
I don't need anything to make me satisfied
              G                    Em
Cause the music fills me good and it gets me every time
         Am                             F
Yeah, and I don't like talking to strangers
                                   G
So get the fuck off me I'm anxious
                                 Em
I'm tryna be cool but I may just go ape shit
                                     Am
```

```
Say "fuck y'all" to all of y'all faces
It changes though now that I'm famous
F                                                   G
Everyone knows how this lifestyle is dangerous
But I love it the rush is amazing
Em                                   Am
Celebrate nightly and everyone rages

I found how to cope with my anger
         F
I'm swimming in money
                          G
Swimming in liquor, my liver is muddy
                                 Em
But it's all good I'm still sippin' this bubbly
                                Am
This shit is lovely, this shit ain't random, I didn't get
lucky
F
Made it right here cause I'm sick with it cuddy
G
They all take the money for granted
                              Em
But don't want to work for it tell me now, isn't it funny? nah

Am                     F
Oh, it's just me, myself and I
         G
Solo ride until I die
         Em                 Am
Cause I, got me for life

                 F
Oh I don't need a hand to hold
         G
Even when the night is cold
         Em
I got that fire in my soul
Am                              F
I don't need anything to get me through the night
                  G
Except the beat that's in my heart
              Em
And it's keeping me alive

Am                              F
I don't need anything to make me satisfied
              G                    Em
Cause the music fills me good and it gets me every time
         Am

Cause the music fills me good and it gets me every time
                 F
Yeah, lonely nights I laid awake
G
Pray to lord, my soul to take
Em
My heart's become too cold to break
Am
Know I'm great but I'm broke as hell
F
Having dreams that I'm folding cake
G
All my life I've been told to wait
Em
But I'ma get it now, yeah it's no debate

Am                          F
I don't need anything to get me through the night
                    G
Except the beat that's in my heart
