D (Say what you mean)
G (Out loud)

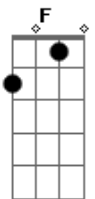

Bm I still taste your presence
D Once sweet but it turned sour
G Tried to shake your indifference
G But it's too late now
Bm I hear you in the quiet
D I see you when I'm in the dark
G You just couldn't fight for this
G But it's not your fault

Bm Say what you mean out loud
Bm Drowning in silence when I'm lost in the crowd
Bm 'Cause every sweet thing you never speak
D Is deafening, never knowing what could be
Bm Wish I could show you how
A But you're just a ghost now

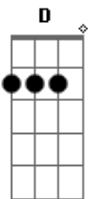

Bm Your laughter haunts me
D Like a ringing in my ear
G You left me long ago
G You're still everywhere
Bm I reach out for you
D I'm desperate for your warmth
G Can you tell me where we went wrong?
G At least tell me just to move on

Bm Say what you mean out loud
Bm Drowning in silence when I'm lost in the crowd
Bm 'Cause every sweet thing you never speak
D Is deafening, never knowing what could be
Bm Wish I could show you how
A But you're just a ghost now
Bm You're just a ghost now
D But you're just a ghost, ghost now
Bm But you're just a ghost, ghost now, now
D But you're just a ghost now
Bm It's time to let it go
A You left me all alone
Bm I wanna feel your heartbeat but it doesn't beat for me no more
G No
Bm It's time to let it go
A You left me all alone
Bm It's holding me down, it's burning me out
