

Gable Price And Friends - Repentance Reimagined

tom: C

Never could move the stars
Can't budge the Milky Way

When the lights are gone and my?friends?move on
You?love me

I built my kingdom high
A ?Babel of modern day

I lost the throne I built on my own
You love me just the same

This is my repentance
I'm sorry
I love You

I'm coming home

This is my repentance
I'm sorry
I love You

I'm coming home

Oh oh

Give me the grace to die
Commencing the dawn of day

No higher truth or fading youth
Can love me like You do

This is my repentance
I'm sorry
I love You

I'm coming home, ooh-ooh

This is my repentance
I'm sorry
I love You
I'm coming home

(F C F F C Em F)
(C F Am C Em)

I built my kingdom, it collapsed at my feet
I nurtured my idols, they betrayed me

And I saw You standing on my prodigal street
Mouthing, "I love you, My boy"

When the stars all fade on my golden robe
And my income fails to carry me home

I see You standing with Your finest robe
Saying, "I love you, oh-oh"

When every idol fails to comfort me
And my own skin and bones are stripped off of me

I'm gonna look at the Holder of eternity
And scream, "I love You"

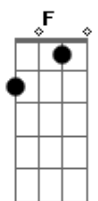

This is my repentance
I'm sorry
I love You
I'm coming home

This is my repentance
I'm sorry
I love You
I'm coming home

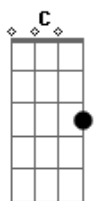

This is my repentance
I'm sorry
I love You
I'm coming home

This is my repentance
I'm sorry
I love You
I'm coming home
