Garth Brooks - When There's No One Around

Tom: G

[G]This is a song that nobody [Em]knows I couldn't [C]begin to describe how it [A]goes But [G]it makes me cry or laugh right out [Em]loud It's [C]a song that I sing when there's no one aroun[G]d

This is the man that nobody sees He wears my old clothes and he looks just like me Just one of the boys who gets lost in the crowd He's the man that I am when there's no one around [C]It's four in the morning Im lyin' in [A]bed [C]a tape of my failures Playin' inside my [A]head [C]It's heartaches and hard knocks And things I don't [A]know [C]I listen and I wonder [G]Where will it [D]go

This is a glimpse of the child that's within

Acordes

He's so immature but he's still my best friend If he could learn how to fly he'd never touch down He's the kid that I am when there's no one around This is the dance I do every day I let my feet go and get carried away I let my soul lead and follow the sound It's the dance that I do when there's no one around It's four in the morning

Im lyin' in bed A tape of my failures Playin' inside my head It's heartaches and hard knocks And things I don't know I listen and I wonder Where will it go

This is a song that nobody knows I still can't begin to describe how it goes But it makes me cry our laugh right out loud It's a song that I sing when there's no one around It's a song that I sing when there's no one around
