G A D A
                                                              I love you Love me love!
[Primeira Parte]
                                                                   Bm
                                                              I love you, love my only true love
                                                              G A D
We're still together after all that we've been through
                                                              I Love you love me love!
They tried to tell you I was not the one for you
                                                              [Ponte]
G A G A
They didn't like my hair, the clothes I love to wear
                                                                                 A G
                                                              So here we are alone, we made it on our own
They didn't' realize that I was strong enough for two
                                                              And though they tried, they can't deny
[Refrão]
                                                              The way I really showed'em
I love you, love, You love me too, love
G A D A
                                                              [Refrão]
I love you Love me love!
                                                              I love you, love, You love me too, love

I Love you love me love!
                                                                   Bm
                                                              I love you, love my only true love
[Segunda Parte]
                                                              I Love you love me love!
The things they said about the two of us were lies
                                                              I love you, love, You love me too, love
G A D A
I knew they couldn't see the sparkle in your eyes
                                                                   Α
                                                              I love you Love me love!
They said I wouldn't dare to show how much I care
                                                                   Bm
                                                              I love you, love my only true love
They didn't know that we were just two angels in disguises
                                                                 A D A
                                                              I Love you love me love! Ow!
