

## Gelpi - Washout

```
tom:
Intro: Em G C G
      Em G C G
[Primeira Parte]
I remember that day I knocked at your door
I could hear my favorite song
        Em
I thought "oh I can't believe we never met before"
And you were right here all along
               Em
We got so much to talk about
All those lights and sound
Are you feeling it as I am?
Babe this could get so wrong and I kind of like it how
You better come to me and say
[Refrão]
And let it all wash out on me
         Em
             C
To get you on your feet again
Seems like I'm a rolling wave
      Em
 I'll take you back to the water now
        Em
 So you can see what I cannot say
[Segunda Parte]
```
