

# Gene Clark - Made For Love

Tom: E

You and I, we tried out the night  
We had all those well made plans  
And every time something didn't go right  
We just threw that into fate's hands

You come walking down to me  
Little talons on your feet  
Like you just wanna conquer the men  
Wear your mind out on your lips  
But your eyes reflect the glimpse  
Of a true heart that I understand

Never wanted to see you cry  
I didn't ride the dark horse to town  
The storm is passing, the clouds roll by  
The sun is coming around

'Cause most of all (most of all)  
I just wanted you to love  
Most of all (most of all)  
Girls were made for boys to love

( Bm A G Bm D )

The summer came, the fall it went  
And the winter snow lay on the ground  
And everybody who was high last year  
Was surely on their way down

And you really got down, you said there was  
Nobody else that you could trust  
I wanted so much for you to just touch on  
The trusting of yourself

Never wanted to see you cry  
I didn't ride the dark horse to town  
The storm is passing, the clouds roll by  
The sun is coming around

'Cause most of all (most of all)  
I just wanted you to love  
Most of all (most of all)  
Girls were made for boys to love  
Made for love  
Most of all  
Made for love
