Tom: G
Intro: G A Cm G (3x) G

```
D              Gm           D           Gm
On the street of villains,  taken for a ride
D              Gm           D        Bb  C
you can have the devil as a guide
D              Gm              D            Gm
crippled by the boundaries, programmed into guilt
D                 Gm            D       Bb  C
'til your nervous system starts to tilt
D                 Gm             D          Gm
And in the room of mirrors you can see for miles
D                    Gm           D       Bb  C
but everything that's there is in disguise
D              Gm             D                  Gm
every word you've uttered and every thought you've had
D                 Gm                    D    D  D  D
is all inside your file, the good and the bad

G              A   Cm         G        A      Cm
But in the rising sun,  you can feel your life begin
G                     G7
universe at play,  inside your DNA
        C                Cm
you're a billion years old today
G         A    Cm         G         A        Cm
oh the rising sun, and the place it's coming from
        G                    C           Cm
is inside of you, and now your payment's overdue
G         A Cm   G     A Cm
oh the rising sun,
G         A Cm   G
oh the rising sun

( G   A )

D                    Gm     D           Gm
On the avenue of sinners I have been employed
D              Gm           D        Bb  C
working there 'til I was near destroyed
D                 Gm          D              Gm
I was almost a statistic inside a doctor's case
        D                Gm            D       Bb  C
when I heard the messenger from inner space

        D            Gm             D            Gm
He was sending me a signal that for so long I had ignored
```

```
        D            Gm           D      Bb  C
but he held onto my umbilical cord
        D              Gm             D           Gm
until the ghost of memory, trapped in my body mind
D                 Gm           D      D  D  D
came out of hiding to become alive

G              A    Cm         G          A      Cm
And in the rising sun you can hear your life begin
        G                        G7
and it's here and there, nowhere and everywhere
        C                Cm
though it's atmosphere is rare
G         A    Cm         G            A        Cm
oh the rising sun and the place that it's coming from
        G                    C           Cm
is inside of me, and now I feel it constantly
G         A Cm   G     A Cm
oh the rising sun
G         A Cm   G
oh the rising sun
