

Gerard Way - Dont Try

tom: **Dbm** (forma dos acordes no tom de **Am**) Capotraste na 4ª casa

Now, days, they've been better, I sleep even deader
I wake up when everyone's gone
Just give us a touch, and let me down slow

Just let me know
If this is some kind of life

Would something else
Die just a little, we try just a little
Let's meet in the middle and wait
Or maybe you won't, I'm boring you don't

You're sad and magical, he thinks you're beautiful
I think you're beautiful too

Get up, get out, and be social
We can't pretend we won't go
Come down, give up cause it's alright
Yeah

You rise in your heart when you're breathing
'Cause you always look mad when you're dreaming
Come down, give up 'cause it's alright
Yeah

Now life's on a little loose notch
It's been a bit of a stretch
So I think I might go
Just breathe in and blow
It's awful, you know
Just hang around, she makes a bigger sound
Some lipstick lines on the shade
Take a little mistake, all the capsules you take
When we dream we all shake

I think he's in love with what you're thinking of
It's liveable, grey hairs are visible, I'm kind of miserable too

Get up, get out, and be social
We can't pretend we won't go
Come down, give up cause it's alright
Yeah

You rise in your heart when you're breathing
'Cause you always look mad when you're dreaming
Come down, give up 'cause it's alright
Yeah

Let's give you everything

Let's find another ride home

Just give me anything
To sleep or to go
If you're down, let me know
Make it up
As we go down

C Am F x2

Get up, get out, and be social
We can't pretend we won't go
Come down, give up cause it's alright
Yeah
You rise in your heart when you're breathing
'Cause you always look mad when you're dreaming
Come down, give up 'cause it's alright
Yeah
