

Geri Halliwell - There's Always Tomorrow

Tom: F

Dm **Gm**
Sometimes I feel so blue inside

E
So when I'm lonely

A
I drive to St. Tropez

I leave the world behind that's gray
Into sunshine
I know I'll be okay I say

Bb **A**
Life is short

Dm **Gm**
Too beautiful for you to worry

Bb **A**
Don't give up

Gm
When love is unkind

A
There's always tomorrow

Dm **Gm**
Don't let them bring you down that way

E
The view is golden

A
Believe the old cliché

I need a little time to play
So kiss the moonlight
The night is young at heart they say

La vie est courte
Too beautiful for you to worry
Tellement
When love is unkind
There's always tomorrow

Just let your imagination take a chance
It'll get you far
Step by step, the road is long
But at the end you can touch a star
I don't care where I came from
It's where I'm going that gets me through
It's all I need to get me through

There's always tomorrow
(Quelque fois je suis triste)

There's always tomorrow
(Il y a toujours demain, Il y a toujours de l'amour)

Life is short
Too beautiful for you to worry
Don't give up
When love is unkind
There's always tomorrow
