G.G. Allin - Outlaw Scumfuc
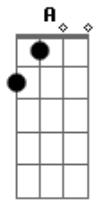

```
                     tom:
                A

         C         D              G
Everybody knows that I'm a scumbag
                                C
They won't come and see me in this dive
                      G
Everyone's afraid of what might happen to them
A                            D
Or if they'll even get out of there alive
      C         D              G
Some fuckhead in the corner is getting to me
                             C
Talkin' about the way I look and smell
                             G
Well I guess he don't know that I'm the Outlaw Scumfuc
A                                          D
Someone aughta' warn him before I knock him straight to Hell
      C         D              G
Because everybody knows that I'm a scumbag
                             C
I like sluts and whores and I don't care
                    G
You can say just what you want to say about me
A                            D
But if I hear you I might just go knock you off your chair
C                  D           G
'Cause I like to drink whiskey by the gallon
                              C
I live on peanut butter sandwiches, I don't care
                         G
I spent some nights in jail in this old country
A                        D
Everybody hates me and I just don't fucking care
         G                    C
'Cause I can sing all those songs about bitches
D                               G
And I still fuck all the prostitutes that I know
                         C
They tell me I smell like raw sewage
          A                      D
But I'm the man that you'll never know
```
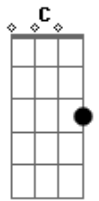

```
     C           D              G
Because everybody knows that I'm a scumbag
                                    C
They won't come and see me if I died
                              G
Everyone's afraid of what might happen to them
        A                    D
Or if they'll even get out of there alive
      C         D              G
Some fuckhead in the corner is getting to me
                             C
Talkin' about the way I look and smell
                              G
Well I guess he don't know it, but I'm the Outlaw Scumfuc
A                                          D
Someone aughta' warn him before I knock him straight to Hell
      C         D              G
Because everybody knows that I'm a scumbag
                             C
I like sluts and whores and I don't care
                    G
You can say just what you want to say about me
        A                    D
But if I hear you I might just go knock you off your chair
         G                    C
And I can sing all those songs about bitches
D                               G
And I still fuck all those prostitutes that I know
                         C
They tell me I smell like raw sewage
          A                      D
But I'm just the man that you'll never know
      C         D              G
Because everybody knows that I'm a scumbag
                                    C
They'll never come and see me in this dive
                    G
You can say just what you want to say about me
        A                    D
I'll turn my back on you and I'll stick you from behind
C          D            G
'Cause everybody knows that I'm a scumbag...
