

Gigi Perez - Glue

```
tom:
                Eb (forma dos acordes no tom de D )
Capostraste na 1ª casa
You are my flaw
You are my thorn
You are everything I've never needed and more
And don't be too flattered
These songs are for you
'Cause all I ever seemed to do
Was drive myself up the walls
I'd pace around until you'd call
You're poison to the touch of my tongue
And I don't know why
But I should face the truth
You found someone like you
Someone that'll get high the way I refuse to
And maybe that's the flaw
We had all along
Tryna make it stick when I am water
And you are glue
And in all that I do
You're dripping onto me
You don't know how to let me be
And when you finally do
Acordes
```

I'll hate you for that too 'Cause I am water and you're glue I don't know what else to do I wanna tell you everything How I can't fucking sleep How I cringe when I see green How it hurts without Celene 'Cause you are my glue And in all that I do You're dripping onto me You're dripping onto me (A) No more green, no more Celene No more green, no more Celene It can't be, it can't be No more, no more 'Cause you are my glue And in all that I do You're dripping onto me You're dripping onto me You're dripping onto me

You're dripping onto me
