Glass Animals - Your Love Déjà Vu

```
                              tom:
                        Gm (forma dos acordes no tom de Em )
Capostraste na 3ª casa
Intro: C  Am  Em  D
```

[Primeira Parte]

```
C                  Am
Mmm, I shut my eyes
                               Em
You call but I just cut the line
             D
I know your style
                                    C
I?know?that you want?one more night
           Am
And I'm backsliding
                        Em
Into this?just one more time
     D
Mmmm
```

[Pré-Refrão]

```
C
Too
            Am
Far from over you
              Em
Beams from your M2
                    D
Are blowin' through my room
          C                Am
And now you lay down in my shoes
                      Em
You dyed your hair blue
                  D
Oh, so much déjà vu

And now
```

[Refrão]

```
C                 Am
I can feel your love
                 Em
Your temporary touch
                 D
It's a hit and run
                             C
You go back there when you're done
                          Am
Don't you want some more?
                          Em
'Cause I can feel your love
     D
Mmmm
```

[Segunda Parte]

```
C                   Am
Mmm, that purple touch
                          Em
Everyone who sees you falls in love
            D
You eat us up
                     C
You live like you're on camera
            Am
You slide on top
                     Em
A moon to all the juice in us
     D
Mmmm
```

[Pré-Refrão]

```
C
```

```
Too
            Am
Far from over you
              Em
Beams from your M2
                    D
Are blowin' through my room
          C                Am
And now you lay down in my shoes
                      Em
You dyed your hair blue
                  D
Oh, so much déjà vu

And now
```

[Refrão]

```
C                 Am
I can feel your love
                 Em
Your temporary touch
                 D
It's a hit and run
                             C
You go back there when you're done
                          Am
Don't you want some more?
                          Em
'Cause I can feel your love
     D
Mmmm
```

[Ponte]

```
C
Maybe in time
                  Am
When we're both better at life
               Em
Daylight can open my eyes
                  D
And you'll still be by my side
C
But meanwhile
               Am
I've got my contact high
                  Em
You've got your powdered lies
                 D
We've got these summertime nights
C                 Am
Night by night, I let you eat me alive
                  Em
I want you to eat me alive
              D
I want you to eat me alive
```

[Refrão]

```
C                 Am
I can feel your love
                 Em
Your temporary touch
                 D
It's a hit and run
                             C
You go back there when you're done

C                 Am
I can feel your love
                 Em
Your temporary touch
                 D
It's a hit and run
                             C
You go back there when you're done
                          Am
Don't you want some more?
                          Em   D
```

'Cause I can feel your love
I can feel your love

[Final] C Am Em D
