```
    C                        Dm
Remember those walls I built
                       Am
Well baby they're tumbling down
                           F
And they didn't even put up a fight
                       C
They didn't even make a sound
                    Dm
I found a way to let you in
                     Am
But I never really had a doubt
                          F
Standing in the light of your halo
C
I got my angel now
```

```
                       Dm
It's like I've been awakened
                     Am
Every rule I had you breakin'
                     F
It's the risk that I'm takin'
                         C
I ain't never gonna shut you out
                    Dm
Everywhere I'm looking now
                         Am
I'm surrounded by your embrace
                     F
Baby I can see your halo
                     C

                          Dm
You're everything I need and more
                        Am
It's written all over your face
                     F
