

Glee - Let It Snow

```
Tom: C
                                                               tchururu tchururu tchururuh
                                                               (EABmE)
Oh the weather outside is frightful
              B Abdim
But the fire is so delightful
                                                               Oh the weather outside is frightful
                                                                             В
And since we've no place to go
                                                               But the fire is so delightful
Let it snow, let it show, let it snow
                                                              And since we've no place to go
                                                              Let it snow, let it show, let it snow
It doesn't show signs of stopping
                    В
And I've bought some corn for popping
                                                               Oh the weather outside is frightful
                                                                             В
The lights are turned way down low
                                                               But the fire is so delightful
Let it snow, let it snow, let it snow
                                                              And since we've no place to go
                                                               Let it snow, let it show, let it snow
When we finally kiss goodnight
How I'll hate going out in the storm
                                                               It doesn't show signs of stopping
But if you'll really hold me tight
                                                               And I've bought some corn for popping
All the way home I'll be warm
                                                              The lights are turned way down low
                                                               Let it snow
The fire is slowly dying
                                                              When we finally kiss goodnight (finally kiss goodnight)
And, my dear, we're still goodbying
                                                              How I'll hate going out in the storm
But as long as you love me so
                                                               But if you finally hold me tight (finally hold me tight)
Let it snow, let it snow, let it,
                                                                                            F F
                                                               Then all the way home I'll be warm
let it snow, doh doh doh doh-ruh doh
                                                               And, my dear, we're still goodbying
tchu tchuru tchu tchu tchuru tchu thuru-ruh
                                                                     Cm
                                                               But as long as you love me so
baran ban ban baranrahn (Blaine)
             Em
                                                               Let it snow, let it sno-ooow,
parabaran para-ran parabaran pa-ran (Kurt)
                                                                     Cm
                                                               let it snow, let it snow
paruh-baruh paruh-baruh baruh (Blaine)
                                                               let it snow, let it snow
