

Glen Hansard - Song Of Good Hope

tom:

Intro: G Am Am D7

Well, if we're gonna make it

Across this river alive

We need to think like a boat

And go with the tide

And I know where you've been

Has really left you in doubt

Of ever finding a harbour

Of figuring this out

And you're gonna need all the help you can get

So lift up your arms now and reach for it

And reach for it

And take your time babe, it's not as bad as it seemed

You'll be fine, babe, it's just some rivers and streams

In between you and where you want to be

Watch the signs now, you'll know what they mean

You'll be fine now, just stay close to me

And may good hope walk with you through everything

La da la... La da na da

Take your time babe, it's not as bad as it seemed

You'll be fine, babe, it's just some rivers and streams

In between you and where you want to be

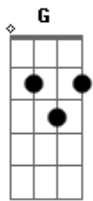

Watch the signs now, you'll know what they mean

You'll be fine now, just stay close to me

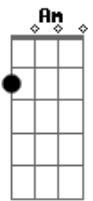

And may good hope walk with you through everything

May the song of good hope walk with you
