

# Gnash? - Feelings Fade

Tom: G

C  
Feelings fade when people change  
D  
I stayed the same  
You played your games  
C  
And now we're left with nothing  
C  
I'm not okay, but it's okay  
D  
Don't walk away  
I'll take the blame  
C  
Before we're left with nothing  
C  
Don't know if I'll be fine without you  
C  
I hope I'll be alright without you

C  
I'm tired of  
Fake people, fake smiles, fake hugs  
D  
Fake hopes, fake friends, fake love  
C  
Cuz fake friends are a real waste of time  
D  
And fake love is real waste of life  
C  
So don't you go texting me  
Telling me  
D  
Wish you were next to me  
Rest in peace  
C  
Everything's ending eventually  
D  
Best friends can become your enemies

C  
Do we have to talk about it?  
D  
You know how I make you feel, right?  
C  
You know I'd be lost without you  
D  
You never felt something so real, right?  
C  
Remember when we ran through all the fountains  
D  
In downtown that one night?  
C  
Now I'm running away  
D  
From the one that I thought was the one, right, cuz

C  
Feelings fade when people change

C  
Don't know if I'll be fine without you  
C  
I hope I'll be alright without you

C  
I'm tired of  
Secrets, lies, excuses  
D  
Holding back, the truth is  
C  
I act like I don't care, but I wish you did  
D  
You used to make me smile, now you make me sick  
C  
I wish I didn't waste my time  
C  
I wish you didn't change my mind

C  
Do we have to talk about it?  
D  
You know how I make you feel, right?  
C  
You know I'd be lost without you  
D  
You never felt something so real, right?

C  
(Ahh man)  
C  
I hope our feelings don't fade  
D  
I know we know we need space  
C  
I'm sorry, I know it's late  
D  
But I've got something to say  
C  
It's gonna be okay, okay tonight  
D  
It's gonna be okay, okay  
C  
It's gonna be okay, okay tonight  
D  
Cuz tomorrow's just a dream away  
C  
It's gonna be okay, okay tonight  
D  
It's gonna be okay, okay  
C  
It's gonna be okay, okay tonight  
D  
Cuz tomorrow's just a dream away
