

Gnash? - Leave a Message

Tom: C

F
I wanna hear your voice
F
But I don't wanna respond
G
Don't really have a choice
G
Just kinda hit me that you're gone
F
Haven't spoke for a minute
G
I been barely living
(I been)
Bm
It only feels so fitting
C
The only care that you were given is the loving that I'm
currently missing
G
We made your wifi code and it's saved to my phone
C
Sometimes I type it in the dots just to check if I'm home
F
Just like E.T. the stars on your ceiling reflect my glow in
the dark heart
C
While it's beating and I'm bleeding out
F
We were bout that scream and shout
G
But what was it that we screamed about?
F
With or without
G
Couldn't figure what would sting worse
C
Always wondered who would leave first
F
Leave a message
G
When no one else is near you
C
So no one else can hear you
Tell me everything
F
Leave a message
G
When there's no one else around
C
I don't want to hear it now but can't seem to turn you down
Leave a
F
Sorry I lost you but I got something to say before I leave
G
I'm sorry that I miss you
C
But it's cool, get to see you in my dreams
F
Thanks for showing me how love feels
G
Thanks for showing me how loss feels too
C
Thanks for making me strong when things fall apart

F
Thanks for the try, at least we had a good start
G
Just wanted to hold you down, but you put me on hold
C
And I gave you all my heart
C
And I gave you my soul
G
Baby every little thing is going to be all right
C
You'll always be on my mind
C
Can't always be in my life
F
I know one day you'll smile with all the happy you need
G
I hope one day you'll smile with all that happy at me
C
One day you'll see everything in you that I see
F
And I hope one day you'll be as happy as you pretend to be
F
Leave a message
G
When no one else is near you
C
So no one else can hear you
Tell me everything
F
Leave a message
G
When there's no one else around
I don't want to hear it now
C
Can't seem to turn you down
Leave a message
F
There's ideas we had, that we no longer know
G
There's places we've been, that we no longer go
C
There's things we learn, that we don't want to know
Bm
And there's people we love
That we have to let go
F
Leave a message
G
When no one else is near you
C
So no one else can hear you
Tell me everything
F
Leave a message
G
When there's no one else around
I don't want to hear it now
C
But can't seem to turn you down
F
Leave a message
