tom:
 E
 You became a fight
 You started a war
 It's in you face
 Your fear and disgrace
 E
 Agony for power and blood
 It's in your root
 Supremacy of rot
 That's what you've got

Acordes

E
 Slavery for humanity
 Just to become a celebrity
 Tranform evil as a hybrid
 Here, there and any city

 And you decide to Go ahead
 Before a beautiful day come instead
 Our pour soul will probably dead
