

# Going Spaceward - Fly Me To The Moon

Am

tom:

[Primeira Parte]

Ok this is gonna be pretty cheesy but uh  
 They say that every day, the universe expands  
 And we discover certain things that we don't understand.  
 Whoa  
 Dark matter ain't the only mystery at hand  
 I'm wond'rin' how I got a girl like you to say that I'm her man

[Segunda Parte]

It's a statistical anomaly, but girl, you've got me  
 Gravity is pulling me to your heavenly body  
 No astronomical phenomenon could ever stop me  
 You've got a smile that every star in the galaxy copied

[Terceira Parte]

The constellations couldn't make as beautiful a pattern  
 The conversations? every night, I ring you up like Saturn

C

The telescopes tell us folks that you're the coolest view  
 A supernova's scootin' over to make room for you

[Quarta Parte]

'Cause you eclipse every wonder of the cosmos  
 It's almost unfair to them, but you're the one I want most  
 It's a miracle that Galileo never found you  
 If he did, he'd say the universe revolved around you

[Refrão ]

Fly me to the moon, let me play among the stars  
 Let me see what spring is like on Jupiter and mars  
 In other words, hold my hand  
 In other words, darling kiss me  
 Fill my heart with song and let me play forever more  
 You are all I wanted, all I worship and adore  
 In other words, please be true  
 In other words, I love you
