Ecstasy is all you need
Living in the big machine
Oh you're so vain
Now your world is way too fast
Nothing's real and nothing lasts
And I'm aware
Bb
I'm in love and you don't care
Turn your anger into lust
I'm still here but you don't trust at all
And I'll be waiting
Love and sex and loneliness
Take what's yours and leave the rest
So I'll survive
```

God it's good to be alive

Eb C Bt

Eb Bt

Repete....

Still in love with all your sins Where you stop and I begin And I'll be waiting Living like a house on fire What you fear is your desire It's hard to deal I still love the way you feel Now this angry little girl Drowning in this petty world Oh who you run to Swallow all your bitter pills That's what makes you beautiful You're all or not I don't need what you ain't got

I'm torn in pieces
I'm blind and waiting for you
My heart is reeling
I'm blind and waiting for you

I'm blind and waiting for you I'm blind and waiting for you
