

Goo Goo Dolls - Nothing Is Real

tom:

C

Hey, anybody in this world

Can you talk to me a while, find a reason for it all?

Cause I've been thinking backwards, to a place I've never been

To a home that never was, it's like I'm losing it again

And it takes so long to say these words

Can you wait that long for me?

C G F

Hey, nothing is real, it's all what you believe

Something you dream inside your head

You know how I feel because it's just you and me

Something I need to call my own

To feel and call my own

C G

Duck inside this empty room

And I'm waiting for the sun to come to me

C G

Someday, I'm gonna get this right

F G

Gonna find a better way, I wanna lead another life

C

I wanted to let you know me

G

But I'm trapped inside the fear

F G

And I never said a word though you always seemed to hear

F G

When I take so long to say these words

F G

Yeah, you wait so long for me

C G F

Hey, nothing is real, it's all what you believe

G C

Something you dream inside your head

G F

You know how I feel because it's just you and me

G Am

Something I need to call my own
