

Grace Davies - Too Young

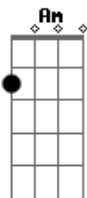

tom:
 When you were young
 Everyone said "you're just like your father"
 Didn't know your own strength
 You've taken some blows
 So you just hit harder
 I was a girl who stood in the playground
 Needed a friend to find a way out
 I did what you said, I was easily led
 But I got my karma
 So tell me how come everybody says
 "You should live with no regrets"
 But everyone has done somethings, I bet they wanna forget
 And I was too young to know better
 Too young to put it right
 I know it ain't big, it ain't clever
 So why did I play with fire?
 We were out of control, ended up getting burnt

If only I'd known at the time
 Too young to know better
 And it's been forever
 So can we draw a line?
 I did it all wrong
 And I was too young
 Can't undo what we done
 We were too young
 And I was too young to know better
 Too young to put it right
 I know it ain't big, it ain't clever
 So why did I play with fire?
 We were out of control, ended up getting burnt
 If only I'd know at the time
 Too young to know better
 And it's been forever
 So can we draw a line?
 So can we draw a line?
