

Grace VanderWaal - Beautiful Thing

Tom: C

You think that you know my heart
 And you probably do
 So I'm always with you
 I could stay with you for hours
 In an empty room
 And never get bored
 Never have nothing to do

You're my other half
 You're what makes me me
 What makes me smile
 When I fall down and can't get back, get back, get back up
 On my feet
 Without you here I am boring
 Something inside you is triggering
 It makes me myself
 Makes me funny

You're a beautiful thing
 We're a beautiful thing together
 Even when the weather is low
 You're a beautiful thing
 We're a beautiful thing together
 Even when the weather is low
 We find the rainbow
 Up in the sky
 You'd say don't you cry, it's all gonna be alright

If we ever gone through a fight oh that would be bad
 'Cause you know all of my secrets
 But I know all of your
 We make hours turn into seconds together

The weight of the world feel like a feather
 'Cause we're holding it right in our hands
 You're my other half
 You're what makes me me
 What makes me smile
 When I fall down and can't get back up, get back, get back up
 On my feet
 Without you here I am boring
 Something inside you is triggering
 It makes me myself
 Makes me funny

You're a beautiful thing
 We're a beautiful thing together
 Even when the weather is low
 You're a beautiful thing
 We're a beautiful thing together
 Even when the weather is low

You and me
 Together, we'll forget what we have been told
 We'll live in our own dream world
 You and me, forever
 We'll forget what we have been told
 We will take on the whole world

Without you here I am boring
 Something inside you is triggering
 It makes me myself, it makes me funny

You're a beautiful thing
 We're a beautiful thing together
 Even when the weather is low

And that's a beautiful thing
