Grace VanderWaal - Figure It Out

```
                          tom:
                     G
Intro: C  F
         C  F

C                               F
 Looks like it's all about to change
C                               F
 Life is such a funny, stupid game
Am          C               F
 You say the word and I'll say the same
Am          C           F
 Maybe we can just run away, mm-mm-mm

C           F
 Ooh-ooh-ooh
             C
 Ooh-ooh-ooh
           F
 Ooh-ooh-ooh

C                               F
 Can't always see way down the road, too busy look at the
trees out my window
C                           F
 And we'll make it all up as we go
Am                    C           F
 And you crashed the party right on time, just as the music
died and on came the lights
Am          C           F           C
 So help me up, bring me back to life, mm-mm, life

C           F
 Maybe, I don't know, oh-oh-oh
C                               F
 We all just figure it out as we go
C                   F
 'Cause no one really knows, oh-oh-oh
```
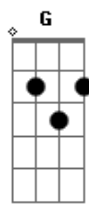

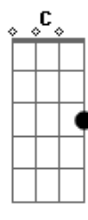

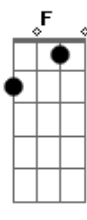

```
Am          C                   F
 We all just figure it out as we go

Em     Am               F
 Way down on Martin Lane (Ooh-ooh-ooh)
Em               Am             F
 Some rich old man cut down everything (Ooh-ooh-ooh)
G               Am                  Dm
 Put up a building, but don't you know?
G                       Am                     F
 Well, all the flow?rs and vines just continued to grow, oh

C                           F
 And des?rts will get cold
                            C
 And no one really knows
                                    F
 We all just figure it out as we go
C                   F
 So here we are right now
                            Am
 And don't even really know how
              C           F
 We just figure out as we go
              C
 Oh-oh
              F
 Ooh-ooh-ooh
              C
 Ooh-ooh-ooh
              F
 Ooh-ooh-ooh

C                           F
 And maybe, I don't know, oh-oh-oh
C                           F
 We'll just figure it out as we go
```
