

# Grace VanderWaal - Light The Sky

Tom: C

C F  
 Stars, they got nothing on us  
 C G  
 I don't think you understand  
 C  
 Let's go out and do  
 F  
 Something we'd never do  
 C  
 Cause I feel like I can do  
 G  
 Anything when  
 C  
 My head is spinning  
 And my feet are off the ground  
 F  
 When I can't stop dancing  
 Like no one's around  
 C G  
 And yeah, I think we were born to shine  
 F  
 Cause' the stars are dull when their  
 C G  
 Compared to you and I  
 F  
 And if people dont like it  
 C G  
 Then they can close their eyes  
 F  
 'Cause we're not the same  
 C G  
 And we don't have to try  
 F  
 We're brighter than fireflies  
 G C  
 We're gonna light the sky

F C G  
 Oh, oh, oh  
 Light the sky  
 C F  
 You and me, me and you  
 C G  
 We will shine through  
 C F  
 You and me, me and you  
 C G  
 We will shine  
 C  
 'Cause my head is spinning  
 And my feet off the ground  
 F  
 And I can't stop dancing  
 Like no one's around  
 C G  
 And yeah, I think we were born to shine  
 F  
 'Cause stars are dull when their  
 C G  
 Compared to you and I  
 F  
 And if people don't like it  
 C G  
 Then they can close their eyes  
 F  
 'Cause we're not the same  
 C G  
 And we don't have to try  
 F  
 'Cause we're brighter than fireflies  
 G C  
 We're gonna light the sky  
 F C G  
 Oh, oh, oh  
 Light the sky
