                tom:
                            G
        G                                    D
  Look at me now, said I wouldn't do it, but I hunted you down
                    Am
Know you had a girl, but it didn't work out
                  C                     D
Know you bought a house, but you had to move out and
G                              D
  I'm not proud, guess I'm just scared of you shooting it down
                        Am
You can just talk, and I'll stare at your mouth
              C                   D
It could be bad, but I wanna find out and

  G         D
  I wake up  in the middle of the night
Am              C
  With the light on, and I feel like I could die
G                      D
  'Cause you're not here  and it don't feel right
Am                      C
  'Cause you're not here

G                 D                       Am
God, I'm actually invested, haven't even met him
              C             D
Watch this be the wrong thing, classic
G                       D                        Am
God, I'm jumping in the deep end, it's more fun to swim in
              C             D             G
Heard the risk is drownin', but I'm gonna take it
D            Am    C
  I'm gonna take it, ooh

  G                       D
  Isn't it fun? Thinking I'm right when I'm probably wrong
          Am
Holding my breath like I met someone
                C                   D
Knowing damn well that I haven't been touched by you
G                         D
  In my head, you're in the car and you're coming to me
                    Am
And you get to my door and you can't even speak, but
                    C                       D
I think that it's sweet, yeah, I think that you're sweet

  G         D
  And I wake up  in the middle of the night
Am              C
  With the light on, and you're not here

G                 D                       Am
God, I'm actually invested, haven't even met him
              C             D
Watch this be the wrong thing, classic
G                       D                        Am

```
God, I'm jumping in the deep end, it's more fun to swim in
              C             D
Heard the risk is drownin', but I'm gonna take it
G
I'm gonna bend till I break and
D
You'll be my favorite mistake
    Am
I wish you could hold me, here shakin'
C                   D
You're the risk, I'm gonna take it
G
Why aren't you here in my bedroom?
D
Hopelessly boring without you
Am
Too soon to tell you I love you
C                   D
Too soon to tell you I love you
( G   D   Am   C   D )

G                       D
God, I'm actually invested
                        Am
Think I really want this
                  C
I'm not even kidding
G                       D
No, I'm actually invested
                  Am
Haven't even met yet
                C
Wish that I was kidding
              D
I'm not, and I hate it

G                 D                       Am
God, I'm actually invested, haven't even met him
              C             D
Watch this be the wrong thing, classic
G                       D                        Am
God, I'm jumping in the deep end, it's more fun to swim in
              C             D             G
Heard the risk is drownin', but I'm gonna take it (oh, oh, oh)
D            Am
  I'm gonna take it
              C             D
Heard the risk is drownin', but I'm gonna take it

G
Too soon to tell you I love you
D
Too soon to tell you I love you
Am
Too soon to tell you I love you
C                   D
You're the risk, I'm gonna take it
