verse/chorus

"musica"

i lock myself inside my room, I WANNA BE ALONE
with you around you'll only add on
with you around you'll only add on
just let me be alone with my thoughts
please don't think i'm crazy, i don't want you to understand
my mind is growing hazy, to hell with your helping hand
why don't you just leave me alonethis conflict is my own
keep your sources away from me that's all
