Green Day - One Of My Lies

Tom: D
Intro: 2x: D A G Gb G Gb

Verso 1:

```
D             A
When I was younger I thought
      B                    Gb
That the world circled around me
     G        D            A
But in time, I realized I was so wrong
D             A
My immortal thoughts turned into
      B           Gb
Just dreams of a dead future
G             D         A
It was a tragic case of my reality
```

Pré-Refrão:

```
G       A
Do you think you're indestructable?
G          A
And no one can touch you?
G              A
Well, I think you're disposable
G          A
And it's time you knew the truth
```

Refrão:

```
                   D B A
Cause it's just one of my lies
                 D B A
Well it's just one of my lies
                   D B A
And all I wanna do is get real high
                 D B A
Cause it's just one of my lies
```

Verso 2:

```
D             A
Why does my life have to be so small?
B            Gb
And death is forever?
G        D            A
And does forever have a life
B          Gb
To call its own?
D                  A
Don't give me answer, cause you only know
B          Gb
As much as I know
G           D              A
Unless you've been there once, well
B          Gb
I hardly think so
```
