Acordes

accidents will happen but this time i can't get up
she comes to check on me
making sure i'm on my knees
after all she's the one
who put me in this state

is she ultra violent? is she disturbed?
i better tell that i love her
before she does it all over again
oh god she's killing me

for now I lay around hell that's all i can really do
she takes good care of me, just keep saying my love is true
