

Green Day - Suzie Chapstick

tom:

Intro: ^C
Dm G C Am
Dm G Am

Will I ever see your face again?

Not just photos from an Instagram

Will you say hello from across the street?

From a place and time we used to meet

Sometimes everything just grows apart

Broken pieces from a busted heart

Not even the drugs seem to work

Living in the shadows where we lurk

^F Outside my window, before the ^{Em} Sun comes up to shine

^F It's just another vacant, cold and lonely night

Do you remember the jokes we told?

Rumors from a long, long time ago

Did we get over our innocence?

Did we take the time to make amends?

Will you dedicate a song to me?

Do you want me to just go away

I just want to be your nobody

Is there any chance that I can stay?

^F Outside my window, there is nothing but a ^{Am} sky
^F It's just another vacant, cold and lonely night

^{Dm} Ba, ba-da-da, ba-ba-ba-da-da-da

^C Ba, ba-da-da, ba, ba, ba, da-da-da
