Green Day - When It's Time

Tom: G

```
    G                         D
Words get trapped in my mind,
              Em                            C
Sorry I don't take the time to feel the way I do.
              G                       D
Cause the first day you came into my life,
                 G               D
The time ticks around you

G                    D
But then I need your voice
              Em                                    C
As the key to unlock all the love that's trapped in me

          G         D         G          G7
So tell me when it's time to say I love you.

C               G
All I want is you to understand, that
D                          G          G     G
when I take your hand, it's 'cause I want to.
C                    G
We are all born in a world of doubt
                        D
But there's no doubt, I figured out

C    G    G
I    love    you.

( G D C )

( Em C D ) (2x)
```

```
(solo 2x)

C               G
All I want is you to understand, that
D                          G          G     G
when I take your hand, it's 'cause I want to.
C                    G
We are all born in a world of doubt
                        D
But there's no doubt, I figured out

C   G    G
I    love    you.

G                   D
I feel lonely for
              Em                                    C
All the losers that will never take the time to say,
                   G                  D    D
What was really on their mind instead
                        G         G   D
They just hide away

G                   D
Yet they'll never have
              Em                                    C
someone like you to guide them and help along the way.
                   G         D          G
Or tell them when it's time to say I love you.

              G         D          C          G    D    G
So tell me when it's time to say I love you.
