Griffinilla - The Flipside

```
                  tom:
                   Am
                   Bm
There's a short cut

Through the source code
          E
There's a gateway

Between zeros
         Bm
Out of sync tree

That was blinking
              E
Where'd it come from?

Where does it go?
         Bm
If you find it
      Gb
Look behind it
          Bm
And you'll see

Where it leads

     Bm
Teleported

On A MISSION
          E
Connecting DOTS

Tunnel VISION
       Bm
Interlacing

Through THE SLIPSTREAM
        E
Interfacing

With THE GAME SCREEN
            Bm
Take A JOYRIDE
          Gb
On THE FLIPSIDE
            Bm
Of THE VOID

Little TOY!

[Instrumental]
 G7   E  Bm  E
 G7  Gb  Bm  Gb

              Bm
There are circles

In the circus
          E
Where the wrong tents

Lead in circuits
```
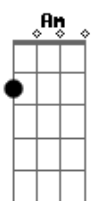

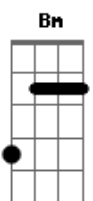

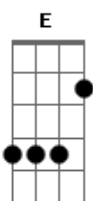

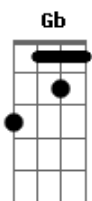

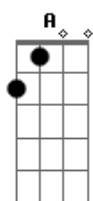

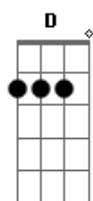

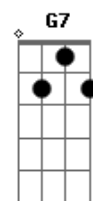

```
                  Bm
Through the foliage

There's a passage
           E
Where the objects

Are like phantoms
          Bm            Gb
In the fabric of the graphics
          Bm
There's a glitch

In the glitch
            Bm
Going deeper

In the eather
            E
And the signal's

Getting weaker
            Bm
Where the road ends

Consequences
         E
And the Red Lake

There's no exit
          Bm
So you wade in
            Gb
But you can't swim
          Bm
So you drown

Falling down

[Instrumental]
 G7   E  Bm  E
 G7  Gb  Bm  Gb

              Bm
There's a shortcut

In the source code
           E
But you know that

Cause I said so
          Bm
Puppet Master still in control
            E
Did you want this?

Are you consouled?
            Bm
I'm just saying
              Gb
?Thanks for playing
          Bm
The end
(G7   E )
```

Acordes

Am Bm E Gb A D G7
