Through the darkness

I can see your light

And you will always shine  
**Bbm** **Gb** **Ebm**  
And I can feel your heart in mine

Your face I've memorized  
**Ab7** **Db** **Db4**  
I idolize just you  
**Db** **Db4** **Db**  
I look up to  
**Db** **Db4** **Db** **Db7**  
Everything you are  
**Bbm** **A** **Gb** **Db**  
In my eyes you do no wrong  
**Ebm**  
I've loved you for so long  
**Bbm** **Gb** **Ab**  
And after all is said and done  
**Bbm**  
You're still you  
**Gb**  
After all  
**Db**  
You're still you  
**Db** **Db4** **Db**  
You walk past me  
**Db** **Db4** **Db** **Db**

I can feel your pain  
**Ebm**  
Time changes everything  
**Bbm** **Gb** **Ab**  
One truth always stays the same  
**Bbm**  
You're still you  
**Gb**  
After all

You're still you

I look up to

Everything you are

In my eyes you do no wrong  
**Em**  
And I believe in you  
**Bm** **G** **Em**  
Although you never asked me to

I will remember you  
**A7** **D** **D7**  
And what life put you through

And in this cruel and lonely world

I found one love

You're still you  
**G** **Em**  
After all

You're still you
