**Ab** **Gb**  
Before you play this round you should know something yes

About the thing, you are not seeing

**Ab** **Gb**  
Hoping to inspire all the angels of men

**Bbm** **Db**  
But you cyan't do it, them alone shall make their fate

**Ab** **Gb**  
Hidden past their makeup, and the diamonds in lights

**Bbm**  
A false worship, reflection of them ego trip

**Ab** **Gb**  
Building up their model of stick like puppet

**Bbm**  
Trying to hide what we see

**Db**  
Jah the defender of beauty

**Cm** **Fm**  
Until the moon and the sun start their focus on we

**Cm** **Fm**  
And the dreams of a child are universally

**Cm** **Fm**  
Nurtured as true, shape and form reflections of we

**Cm** **Fm**  
Only then will man and women be respected equally  
Jah know

Just like all her idols she wants to sparkle and fly  
But you'll never reach it, stuck like in quick sand pit  
Feeling like a failure you want to run off and hide  
But you cyan't do it, remembering life is a blessing  
Driven by the powers that man has devised  
It's only physical, could never get spiritual  
Challenging up this model would be out fight  
Recalling history, Jah the defender of beauty
