Bom galera nao erreí nos acordes abaixos eles sao feitos assim mesmo

faça uma pestaninha.Pois a musica usa uma afinação mais pesada,entao

pra dar este efeito vc deve fazer estes acordes mesmo.

legenda b=baixo e c=cima

entre a primeira nota(**D** com baixo no lá) e a segunda ele faz uma batida

pra baixo abafada ai opcional se vc quiser ow nao,mas entre uam nota e

outra há um certo tempo,na é tudo seguida

Esta base segui por toda a musica apenas no final ele faz aquele solo

It don't really matter
You'll find out for yourself
No it don't really matter
You're gonna leave this thing to
Somebody else

You think we're missionaries
Real time visionaries
Sitting in the Chinese stew???

I know that I'm a classic case
Watch my disenchanted face
Blame it on the Falun Gong
It's to the end and it can't hold on now

Cause it would take a lot more hate than you
To stop from fascination
Even with an iron fist
More than you got to rule the nation but all I got is
Precious time

It don't really matter
I guess I keep to myself
Said and don't really matter
I guess you'll do this thing to
Somebody else

Cause it would take a lot more time than you
have got to masturbation????
Even with an iron fist
More than you got to rule the nation but all We've got is
Precious time
More than you got to fool the nation but all I got is
Precious time

It don't really matter
Gonna keep it to yourself
No it don't really matter
So you can hear it now from
Somebody else

You think you got it all locked up inside
And if you beat them enough, they'll die
And then you'll walk them home to their cell
Then now you'll dig from your row back in hell
And if ??????????
As if your eyes were your ass you can tell
In another time
