

# Gustavo Bertoni - Patience

tom:

Intro: C

I fell in love with her

Inside my head

Turns out my head

Was a mess

So here I am again

In the dark

Might as well make myself a bed

Here by the mirror

I don't wanna sing

I don't wanna talk

Just wanna be alone

I feel a relief

Feeling all this grief

After many months

Of just trying to breathe

An answer to my indecent ways

I guess we all deal with our pain

Escaping our own maze

I don't wanna fight

I don't wanna gloat

Just wanna be alone

( F7M C )

Give yourself some time

Patience, my friend

You're still worth fighting for

Give yourself some time

Patience, my friend

You're still worth fighting for

I don't wanna sing

I don't wanna talk

I don't wanna fight

I don't wanna gloat

Just wanna be alone

## Acordes
