

Gustavo Bertoni - Patience

tom:

Intro: C

I fell in love with her
Inside my head
Turns out my head
Was a mess

So here I am again
In the dark
Might as well make myself a bed
Here by the mirror

I don't wanna sing
I don't wanna talk
Just wanna be alone

F7M C
I feel a relief
Feeling all this grief
After many months
Of just trying to breathe

An answer to my indecent ways
I guess we all deal with our pain
Escaping our own maze

I don't wanna fight
I don't wanna gloat
Just wanna be alone

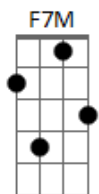

(F7M C)

G A B A F7M
Give yourself some time
Patience, my friend

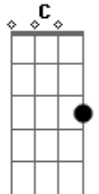

You're still worth fighting for
Give yourself some time
Patience, my friend
You're still worth fighting for

I don't wanna sing
I don't wanna talk
I don't wanna fight
I don't wanna gloat
Just wanna be alone
