[Primeira Parte]

(F Aadd9)

Electrizado le escapé

A la sobrecarga del ayer

Miles de Voltios de atracción

Debo ser un buen conductor

Uh babe, no soportaba la presión

Fundí mis naves justo antes de la explosión

De que desastre me salvé!

En buena hora me solté

Y en un segundo me encontré

Uh babe, en tu órbita

Extasiándome

Fue otro vacío que llené

Metros medidos con mi pie

Polos opuestos de atracción

Siempre buscando conexión

Uh babe, el espejismo es una sed

Yo nunca aprendo, de las mareas soy rehén

De qué desastre me salvé?

En mala hora te solté

Y en un segundo me encontré

Un babe, en un furioso mar

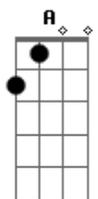

Sin saber de ti

Algunas cosas siempre vuelvo a repetir

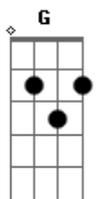

Es así
