Tom: G

(forma dos acordes no tom de Ab)

Afinação: Eb Ab Db Gb Bb Eb

Intro: Db Eb Cm Fm Db Eb Ab

All my life it seems

I was stumbling along the rocky  
road of Love

Trying to find my one and only love

All the heartaches remain

Like a plane upon me drowning in  
my Loneliness

I tried to hide my pain until you came

Now everything's okay

You healed me with your love

Now I feel like giving again

Oh oh oh oh

You touched my life

You're so very special

No song I sing, no words I'll say

To tell you how I feel today

You touched my life

You're so very special

Oh, my love

You're very special to me

All the nights I prayed

That my love would come down

shining in one ray of hope

And carry me away to happy days

Oh, those old broken dreams

Always there to haunt me, lost

inside my emptiness

My life was filled with rain until you

Came

Now everything's okay

You healed me with your love

Now I feel like giving again

Oh oh oh oh

You touched my life

You're so very special

No song I sing, no words I'll say

To tell you how I feel today

You touched my life

You're so very special

Oh, my love

You're very special to me

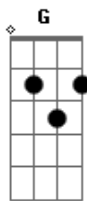

You touched my life

You're so very special

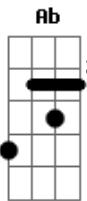

Oh, my love

You're very special to me
