                                                              Here's to us
                                                              Here's to all that we kissed
We could just go home right now
                                                              And to all that we missed
Or maybe we could stick around
For just one more drink, oh yeah
Get another bottle out
                                                              To the biggest mistakes
Lets shoot the shit
                                                                  G
Sit back dow
                                                              That we just wouldn't trade
For just one more drink, oh yeah
                                                              To us breaking up
                                                              Without us breaking down

Stuck it out this far together
Put our dreams through the shredder

And everything could change like that
