

# Halestorm - In Your Room

Tom: E

Let me in your room A

I've seen the rest of you B

But I know there's something more in your room A

I'm right outside your door B

Show me things you've never shown before A (once)

A few pictures from your past A

And the walls you painted black B

And the secrets that you keep under your bed A

All you have to do is let me in your room B (hold)

You can be yourself A

You don't have to hide from me I won't tell B

I know everyone you've ever trusted has let you down A

And you don't want to come out B

And show me, show me (pause)

A few pictures from your past A

And the walls you painted black B

And the secrets that you keep under your bed A

All you have to do is let me in your room B E

You know every part of me A

I let you in, I let you see B

All the dark and every color of my room E A E

Let me do that for you B

And tell me all about your past A

Why you painted those walls black B

Baby it's all right you're safe in here with me E A

Open up so I can see B

A few pictures from your past A

And the walls you painted black B

And the secrets that you keep under your bed A

An open letter from your dad A

A poster of your favorite band B

It don't matter I'll take every part of you E A

All you have to do is let me in your room B E

Let me in your room A
