tom:  
Intro: **D** **A** **Bm** **A** **G**  
Oh, oh

[Verse 1]

**D** **G**  
**A** **G**  
They're cuttin' her up on the operatin' table, but it wasn't enough  
**Bm**  
The front desk pages, it's a call for the ages  
**A** **G**  
They couldn't save her, they couldn't save her  
**D** **G**  
The surgeon said, "She had a hole in her heart  
**A** **G**  
But it wasn't her fault, it was there from the start"  
**Bm**  
Tryin' to love you through an open wound  
**A** **G**  
'Cause everythin' I put inside there just fell right through  
**D**  
And I hold the parts together with some pressure and glue  
**G**  
And you're runnin' in slow-mo to the hospital room  
**Bm**  
If you only knew  
**A** **G**  
How bad it hurt me too

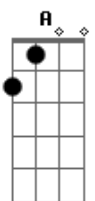

[Chorus]

**D**  
So now you can take the money, you can get on a plane  
**G** **A** **G**  
To a beautiful island, build her house in my name  
**Bm**  
You can donate all the money to somebody in pain  
**A** **G**  
And you can rest your head down and not feel any shame  
**D** **G** **A** **G**  
I never loved you  
**Bm** **A** **G**  
I never loved you  
**D** **G**  
I never loved you in vain

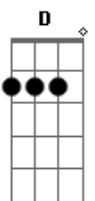

[Verse 2]

**D**  
They're sewin' me shut  
**G** **A** **G**  
Openin' the doors and then removin' their gloves  
**Bm**  
Taking the long way to the end of the hallway  
**A** **G**  
They couldn't save her, they couldn't save her  
**D** **G**

Told the nurses that we argued a lot

You drove off screamin' on the night you were caught  
**D** **G**

**D** **G**  
I took off chasin' you down Route 22  
**A** **G**  
'Cause you never listened, and I'm terrible too  
**Bm** **A** **G**  
You kept on drivin' far away from the issues  
If you stopped, I would've kissed you

So now you can take the money, you can get on a plane  
**G** **A** **G**

**G**  
Flash of light, heat of fire  
**Bm**  
Head on concrete and the screechin' of tires  
**G**  
Sound of sirens, rush of pain  
I almost thought I heard you call my name

[Chorus]

So now you can take the money, you can get on a plane
