

# Halsey - Sorry

Tom: **A**

Intro: **Bm D Gbm E**

**Bm**

I've missed your calls for months it seems

**D**

Don't realize how mean I can be

**Gbm**

'Cause I can sometimes treat the people

**E**

That I love like jewelry

**Bm**

'Cause I can change my mind each day

**D**

I didn't mean to try you on

**Gbm**

But I still know your birthday

**E**

And your mother's favorite song

**Bm**

So I'm sorry to my unknown lover

**D**

Sorry that I can't believe

**Gbm**

That anybody ever really

**E**

Starts to fall in love with me

**Bm**

Sorry to my unknown lover

**D**

Sorry I could be so blind

**Gbm**

Didn't mean to leave you

**E**

And all of the things that we had behind

**Bm D Gbm E**

Ooh, ooh, ooh

**Bm**

I run away when things are good

**D**

I never really understood

**Gbm**

The way you laid your eyes on me

**E**

In ways that no one ever could

**Bm**

And so it seems I broke your heart

**D**

My ignorance has struck again

**Gbm**

I failed to see it from the start

**E**

And tore you open 'til the end

**Bm**

And I'm sorry to my unknown lover

**D**

Sorry that I can't believe

**Gbm**

That anybody ever really

**E**

Starts to fall in love with me

**Bm**

Sorry to my unknown lover

**D**

Sorry I could be so blind

**Gbm**

Didn't mean to leave you

**E**

And all of the things that we had behind

**Bm**

And someone will love you

**D**

Someone will love you

**Gbm**

Someone will love you

**E**

But someone isn't me

**Bm**

Someone will love you

**D**

Someone will love you

**Gbm**

Someone will love you

**E**

But someone isn't me

**Bm**

Sorry to my unknown lover

**D**

Sorry that I can't believe

**Gbm**

That anybody ever really

**E**

Starts to fall in love with me

**Bm**

Sorry to my unknown lover

**D**

Sorry I could be so blind

**Gbm**

Didn't mean to leave you

**E**

And all of the things that we had behind

**Bm**

And someone will love you

**D**

Someone will love you

**Gbm**

Someone will love you

**E**

But someone isn't me

**Bm**

Someone will love you

**D**

Someone will love you

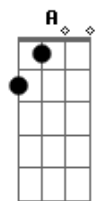

**Gbm**

Someone will love you

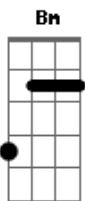

**E**

But someone isn't me
