Halsey - Young God

```
                         tom:
                    C
```

```
                       Am
He says, "Oh, baby girl, you know we're gonna be legends
         F
I'm a king and you're a queen and we will stumble through
heaven
                    C
If there's a light at the end, it's just the sun in your eyes
             G
I know you wanna go to heaven but you're human tonight"
```

```
                   Am
And I've been sitting at the bottom of a swimming pool
       F                                              C G
For a while now, drowning my thoughts out, the sounds
```

```
          Am
Do you feel like a young god?
              F
You know the two of us are just young gods
                  C
And we'll be flying through the streets with the people
underneath
            G
And they're running, running, running
          Am
Do you feel like a young god?
              F
You know the two of us are just young gods
                  C
And we'll be flying through the streets with the people
underneath
            G
And they're running, running, running again
```
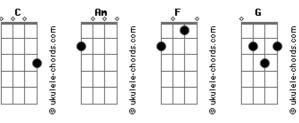

Am F C G

```
(We'll be running, running, running again)
```

```
(We'll be running, running, running)
```

```
                       Am
He says "Oh, baby girl, don't get cut on my edges
         F
I'm the king of everything and oh, my tongue is a weapon
                  C
There's a light in the crack that's separating your thighs
              G
And if you wanna go to heaven you should fuck me tonight"
```

```
                         Am
And I've been sitting at the bottom of a swimming pool
       F                                              C G
For a while now, drowning my thoughts out, the sounds
```

You know the two of us are just young gods
